Asunto: partners search

Dear colleagues!

The reason we are applying to you is that our organization is in need of partners to participate in 6th call of Tempus proposals. Be so kind to take interest in the proposal attached.

We hope for long cooperation and successful results!

.....
1. Name of your university/institution/industry or company interested in participating in TEMPUS project: Kokshe Academy

2. Main field of activities of your institution:

Kokshe Academy was formed in 1993 and now is higher education institution, aimed at education, science and culture development. There are two specialties for master degree:

- **Economics;**
- **Ecology;**

3. Information about the intended TEMPUS project:

Development of International Master Courses in Ecology

4. Project proposal/description:

The proposed academic offer is conceived as an instrument to face the actual international environmental problems, as well as the new pressures created by unsustainable economic growth. The variety of existing problems requires an interdisciplinary approach and an integrated methodology to make sure that the project proposal has a long-term impact. The project gives an opportunity to higher education institutions to improve their master programs according to the demands of modern education. The aims of the project include: curricula analysis, curricula design of MA degree courses, definition of the needed competences in the area of Ecology, modularization, assignment of ECTS, methods of internships and practices in companies, tutoring projects, methods of evaluation, up-dating and preparation of new teaching materials
